

DR. ISACK

RUGEMALILA

"BORN RICH, RAISED POOR, MADE GREAT"

PHYSICIAN

His passion to care made a quick elevation to become the youngest and junior head of department which gave services to over 100,000 patients in a year at his working place.

His hard working mentality paid off when he became the first Tanzanian to win an International Postgraduate Addiction Science Scholarship Award landing him oversees.

[ARTICLES...](#)

SPEAKER

Starting with individuals, then small groups he quickly found himself standing before multitudes of people across his home country through speaking appointments and meetings over the period of 10 years.

He covered various topics on personal and national development.

PICTURE

DR. PAD: *Feel Amazing, Stay Safe*

The use of sanitary pads and baby diapers has been associated with ill-health to women of reproductive age as well as to babies such as skin itching and burning, rashes, foul smelling, pain and opportunistic infections to urinary and reproductive tracts. The ineffective and unhygienic ways of using the women pads and baby's diapers is the underlying concern.

Therefore, this program has been designed to provide FREE CONSULTATION to best ways of using pads/diapers to prevent, reduce and care the unhealthy consequences.

DO YOU FACE A CHALLENGE AND NEED MORE
INFORMATION ON PROPER USE OF PADS/DIAPERS??
